NEWBORNS
BBC Media Action | www.bbc.co.uk/mediaaction
This international development charity uses media and communications to tackle poverty and contribute to long-term change in some of the world’s poorest countries.

The Business Leadership Council for a Generation Born HIV Free | www.genhivfree.org
An initiative to apply the mindsets, capabilities and resources of the private sector to ending transmission of HIV from mothers to children by 2015.

ColaLife | www.colalife.org
ColaLife is working in developing countries to bring Coca-Cola, its bottlers and others together to save children’s lives by opening the distribution channels that Coca-Cola uses to enable “social products” such as oral rehydration salts and zinc supplements reach the families who need them to prevent child diarrhea deaths.

Elizabeth Glaser Pediatric AIDS Foundation | www.pedaids.org
Active in 15 countries, this foundation works to prevent and eradicate pediatric AIDS through research, advocacy, prevention, care and treatment programs.

Empower Generation | www.empowergeneration.org
Empower Generation seeds and supports women-led enterprises serving the energy poor in Nepal by providing women with technical training and support to establish and grow clean energy businesses and to facilitate loans for their customers.

Global Alliance to Prevent Prematurity and Stillbirths | www.gapps.org
An interdisciplinary and international effort to increase awareness and accelerate research to improve maternal, newborn and child health around the world.

Goods for Good | www.goods4good.org
Goods for Good builds community-owned and operated businesses that generate income and fund orphan care programs for education, health and nutrition in Malawi. These businesses, which include chicken farms, agriculture enterprises and co-ops, create jobs, stimulate the local economy and ensure Malawi’s children have every opportunity to thrive.

Innovation: Africa | www.innoafrica.org
Innovation: Africa provides light, clean water, food and proper medical care to more than 450,000 people in Ethiopia, Tanzania, Malawi and Uganda by installing solar power, water pumps and drip irrigation technology and by training local communities to maintain the infrastructure.

Hawa Abdi Foundation | www.dhaf.org
The Dr. Hawa Abdi Foundation provides healthcare, food and shelter to Somali women and children fleeing the violence of civil war.

Jhpiego | www.jhpiego.org
Affiliated with The Johns Hopkins University, this international not-for-profit works in more than 54 countries to support frontline health workers and put evidence-based innovations into use.

MSH | www.msh.org
MSH saves lives and improves the health of the world’s poorest and most vulnerable people by closing the gap between knowledge and action in public health. With partners, MSH helps managers and leaders in developing countries create stronger management systems that improve health services for the greatest health impact.
Malaria Consortium | www.malariaconsortium.org
Malaria Consortium specializes in the prevention, control and treatment of malaria and other communicable diseases among vulnerable populations in 12 countries across Africa and Southeast Asia. Local insight, embedded technical expertise and practical skills give Malaria Consortium the agility to respond to critical challenges quickly and effectively.

March of Dimes | www.marchofdimes.com
Partnering with local organizations in 33 developing countries, the March of Dimes improves healthcare for babies through professional education, public awareness and strengthening parent organizations. Its “Prematurity Campaign” helps 15 million families globally.

Maternova | www.maternova.net
The first online global marketplace to equip healthcare workers with and keep them informed about ideas and technologies that save the lives of mothers and newborns in 30 countries. Its “Innovation Index” tracks and promotes tools currently in research and development.

PSI | www.psi.org
PSI is a global health organization dedicated to improving the health of people in the developing world by focusing on serious challenges such as lack of family planning, HIV and AIDS, barriers to maternal health, and the greatest threats to children under five, including malaria, diarrhea, pneumonia and malnutrition.

Project Muso | www.projectmuso.org
Project Muso partners with communities in Mali to solve the root causes of health crises by integrating healthcare delivery, community organizing, microenterprise and education to stop cycles of poverty and disease, and to replace them with cycles of health and well being.

Save the Children | www.savethechildren.org
The world’s leading independent organization for children. Its Saving Newborn Lives program is in 18 countries, working to design, develop and implement national strategies and policies that improve the quality and availability of care for newborns.

Somaly Mom Foundation | www.somaly.org
This foundation is committed to ending modern slavery and empowering its survivors as part of the solution. Human trafficking, a multibillion dollar industry, is the fastest growing criminal enterprise in the world, with an estimated two million women and children sold into sexual slavery each year.

Speak Up Africa | www.SpeakUpAfrica.org
Speak Up Africa is dedicated to eliminating child deaths from preventable disease in Africa by mobilizing African leadership, resources and action against the three leading causes of death among children: pneumonia, malaria and diarrhea. The organization uses innovative communications, traditional and social media to catalyze multi-sectoral engagement to mobilize needed public and private sector resources while inspiring individual Africans to take action against preventable child disease.

Tostan | www.tostan.org
Tostan (which means “breakthrough” in the West African language of Wolof) works in over 500 communities in Djibouti, The Gambia, Guinea, Guinea-Bissau, Mauritania, Senegal and Somalia, and to empower African communities to bring about sustainable development and positive social transformation based on respect for human rights.

Wellbeing Foundation | www.wellbeingfoundationnig.org
Founded by activist Oluwatoyin Saraki, this group strives to improve the health of mothers, newborns and children in Nigeria by providing services and education to empower women, healthcare workers and families.
CHILDREN

BRAC | www.brac.net
Active in 10 countries, BRAC reaches an estimated 12 million people and seeks to alleviate poverty by empowering the poor to create positive changes in their lives.

Clinton Health Access Initiative | www.clintonhealthaccess.org
This campaign seeks to reduce the cost of life-saving healthcare, including treatments for malaria and tuberculosis, access to diagnostics, and vaccines delivery. Its ultimate goal is to change the economics of global health.

GAVI | www.gavi.org
GAVI is a public-private partnership focused on saving children’s lives and protecting people’s health by increasing access to immunization in poor countries.

Global Alliance for Clean Cookstoves | www.cleancookstoves.org
This public-private partnership seeks to save lives by creating a thriving global market for clean and efficient household cooking solutions.

icddr,b | www.icddrb.org
An international health research organization in Bangladesh, icddr,b translates research into treatment, training and policy advocacy to address some of the most critical health concerns facing the world today.

Malaria No More | www.malarianomore.org
This group’s goal is to end malaria deaths by engaging leaders, rallying the public and delivering tools and education to families across Africa. It supports high-impact awareness campaigns, global advocacy and strategic investments to build capacity among organizations in Africa.

PATH | www.path.org
This not-for-profit working in 70 countries partners with the public and private sectors to create sustainable, culturally relevant solutions to enable communities to break long-standing cycles of poor health.

Sesame Workshop | www.sesameworkshop.org
Sesame Workshop is the now 40-year-old, not-for-profit educational organization behind the television show Sesame Street. The Workshop produces content for multiple media platforms based on a whole-child curriculum, including literacy, health and resiliency. It is launching a new global health initiative that will focus on enhancing and promoting healthy behaviors.

Together for Girls | www.togetherforgirls.org
Partnering with national governments, civil society and the private sector, Together for Girls brings attention to, and helps support efforts addressing sexual violence against girls.

Working in 190 countries and territories, the United Nations Children’s Fund (UNICEF) has supplied vaccines to 60% of the world’s children, helped nearly two billion people gain access to safe drinking water since 1990, and dramatically increased the global supply of therapeutic food for malnourished children.

WOMEN

Acumen Fund | www.acumen.org
Acumen Fund is a global network of investors and advisors that provides capital investments to support socially minded entrepreneurs and emerging businesses in global health, water, housing, energy and agriculture.

Aga Khan Health Services | www.akdn.org/AKHS
One of the most comprehensive private not-for-profit healthcare systems in the developing world, Aga Khan Health Services (AKHS) has community health programs throughout Central and South Asia and East Africa. It runs 325 health facilities, including nine hospitals. The organization provides primary health care and curative medical care in Afghanistan, India, Kenya, Pakistan and Tanzania. It also provides technical assistance to governments in health service delivery in Kenya, Syria and Tajikistan.
AMREF | www.amref.org
Based in Nairobi, Kenya, AMREF trains health workers in more than 40 countries to provide communities with the knowledge and means to maintain good health in an effort to break the cycle of poverty.

CARE | www.care.org
This organization places special focus on working alongside poor women because, equipped with the proper resources, they have the power to help whole families and entire communities escape poverty. CARE's community-based efforts seek to improve basic education, prevent the spread of disease, increase access to clean water and sanitation, expand economic opportunity and protect natural resources.

Center for Health Market Innovations | www.healthmarketinnovations.org
CHMI promotes programs, policies and practices that make quality health care delivered by private organizations affordable and accessible to the world's poor. The CHMI website offers a clearinghouse of projects and initiatives testing and creating models of health care delivery.

Containers2Clinics | www.containers2clinics.org
C2C deploys modular, financially self-sustaining healthcare clinics made from shipping containers to low-income communities, and hires local clinical personnel to staff and manage them.

EngenderHealth | www.engenderhealth.org
For decades, EngenderHealth has improved the lives of men, women and families through its work in family planning, maternal health, HIV/AIDS and gender equity. Across the globe, it supports a holistic approach to maternal health by addressing women's sexual and reproductive health needs throughout their lives, and equipping healthcare facilities with medical supplies and well-trained staff to provide high-quality services.

Every Mother Counts | www.everymothercounts.org
Christy Turlington Burns founded this organization in 2010 as a campaign to end preventable deaths caused by pregnancy and childbirth around the world by informing, engaging and mobilizing new audiences to take action.

Family Care International | www.familycareintl.org
Every two minutes, a woman dies needlessly from complications of pregnancy or childbirth. For a quarter century, Family Care International has worked to end this slow-motion catastrophe. FCI fights for commitment and funding to save women's lives, and works with communities to raise awareness, create innovative solutions and tools, and implement effective programs.

FHI 360 | www.fhi360.org
FHI 360 is a nonprofit human development organization dedicated to improving lives in lasting ways by advancing integrated, locally driven solutions. Our staff includes experts in health, education, nutrition, environment, economic development, civil society, gender equality, youth, research and technology—creating a unique mix of capabilities to address today's interrelated development challenges. FHI 360 serves more than 60 countries and all U.S. states and territories.

Friends of UNFPA | www.friendsofunfpa.org
Established in 1998, Friends of UNFPA is a nonprofit organization, headquartered in New York, that supports the work of UNFPA, the United Nations Population Fund. UNFPA is delivering a world where every pregnancy is wanted, every childbirth is safe, and every young person's potential is fulfilled. Friends of UNFPA advances this global effort by mobilizing funds and action for UNFPA's lifesaving work.

Global Fund for Women | www.globalfundforwomen.org
A publicly supported, not-for-profit grantmaker, this foundation advances women's human rights by supporting organizations that work on local, regional and national levels to enable women and girls to reach their potential and live free of discrimination and violence.

Gynuity | www.gynuity.org
Gynuity Health Projects is a research and technical assistance organization dedicated to the idea that all people should have access to the fruits of medical science and technology development. Our goal is to make reproductive health technologies convenient, acceptable, safe and widely accessible.
Intrahealth International | www.intrahealth.org
A global leader that empowers healthcare workers to better serve communities in need around the world by developing and implementing health strategies and strengthening workforces.

The International Center for Research on Women | www.icrw.org
ICRW is a global research institute with headquarters in Washington, D.C., and regional offices in Nairobi, Kenya, and New Delhi, India. Our research identifies women's contributions as well as obstacles preventing them from being strong economically and participating fully in society. ICRW translates these insights into actions to create conditions in which women can thrive.

International Planned Parenthood Federation | www.ippf.org
IPPF works in 172 countries to empower the most vulnerable women, men and young people to access life-saving services and programs. Member associations provide sexual and reproductive health information, education and services through 65,000 service sites.

Marie Stopes International | www.mariestopes.org.uk
MSI is one of the largest international family planning organizations in the world. For 30 years, it has provided millions of the world's poorest and most vulnerable women with quality family planning and reproductive healthcare in 42 countries.

Merlin | www.merlin.org.uk
The United Kingdom’s leading international health charity, Merlin sends medical experts to the frontline of global emergencies. Working with health workers on the ground, Merlin helps countries shattered by war, earthquake or floods, from emergency to recovery—staying in country as long as it takes to make that happen.

Mothers to Mothers | www.m2m.org
This NGO works to help prevent mother-to-child transmission of HIV. By training and hiring mothers living with HIV, an army of “Mentor Mothers” is empowered to work alongside overworked and underresourced doctors and nurses. Together, they strike to eliminate mother-to-child transmission of HIV.

Pathfinder International | www.pathfinder.org
In more than 20 countries, Pathfinder provides women, men and adolescents with a range of quality health services, including contraception, maternal care and HIV prevention, as well as AIDS care.

The Population Council | www.popcouncil.org
The Population Council confronts the greatest challenges people in the developing world face—from stopping the spread of HIV, to expanding contraceptive choices to improving reproductive health and ensuring youth lead full, productive lives. Through the organization’s biomedical, social science and public health research in more than 50 countries, it works with partners to deliver solutions leading to more effective policies, programs and technologies that improve lives worldwide.

Promundo | www.promundo.org.br/en
Promundo is a Brazilian organization, with offices in Rio de Janeiro, Washington, D.C., and Kigali, Rwanda, that collaborates to transform gender norms and power relations within key institutions where these norms are constructed; and is based on building local and international partnerships. At its core, Promundo is an applied research institute that works to test, evaluate and advocate for policies and programs that transform masculinities.

Riders for Health | www.riders.org
Started by motorcycle enthusiasts, Riders for Health trains local entrepreneurs to manage and maintain vehicles that healthcare workers use to serve rural African communities reliably and cost-effectively.

Together for Girls | www.togetherforgirls.org
In partnership with national governments, civil society and the private sector, Together for Girls brings attention to the issue of sexual violence against girls and assists country-driven efforts for change. Our approach builds on our partners’ diverse advocacy, policy and service delivery platforms to support a comprehensive response to this complex issue.
United Nations Foundation | www.unfoundation.org
The UN Foundation leads the Universal Access Project, which engages policymakers and the public to support international reproductive health and family planning. Since the initiative began in 2008, U.S. funding for international reproductive health and family planning services has increased 30%.

We Care Solar | www.wecaresolar.org
This group has developed a portable, cost-effective solar suitcase that powers critical lighting, mobile communication and medical devices in low-resource areas without reliable electricity.

The White Ribbon Alliance for Safe Motherhood | www.whiteribbonalliance.org
White Ribbon Alliance is a global network of maternal health advocates campaigning for more resources and the right policies to prevent the needless deaths of women.

Women Deliver | www.womendeliver.org
This organization advocates globally for action to improve the health and well-being of girls and women by generating political commitment and resource investments to reduce maternal mortality and achieve universal access to reproductive health.

If you are interested in working with any of these organizations, please contact The Philanthropy Centre at J.P. Morgan at 212.464.2000. Alternatively, you can email the.philanthropy.centre@jpmorgan.com. We would be delighted to connect you to the appropriate person.
